EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Sawyer on 10/2/05.

The application has been amended as follows:

In the claims:

In claim 8, lines 7-8, the phrase "said aperture" has been changed to -- an aperture – and the phrase "said kingpin" has been changed to – a kingpin --.

In claim 14, line 10, the word "an" has been changed to – a --.

2. The following is an examiner's statement of reasons for allowance:

In claim 7, item "d", the recitation of a suspension joint allowing the leaf spring suspension to rotate and allow the longitudinal bed section to pivot and maintain the axles in position, in combination with the rest of the recited structure, defines over the prior art. Browning ('324) uses extending axles and modifying the trailer of Browning would alter the function.

In claim 12, item "f", the recitation of a set of arms pivotally connected to said axle to facilitate movement of the platform, in combination with the rest of the recited structure defines over the prior art. Browning ('324) does not disclose arms pivotally attached to the axles, and modifying the trailer of Browning would alter the function.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
